

**DRAFT FOR PAB VOTE:
OPTION #1 APPROVE
MEMORANDUM**

DATE: [xxx]

FROM: City of San Diego Privacy Advisory Board

TO: The Honorable Council President Elo-Rivera and Members of the San Diego City Council

RE: San Diego Police Department Proposal to Acquire Smart Streetlights with Automated License Plate Readers

We recommend that City Council approve the San Diego Police Department (“SDPD”) Smart Streetlight and Automated License Plate Readers (“ALPRs”) moving forward with the City of San Diego.

All of our questions have been answered as requested. We are satisfied that the SDPD Team has done their due diligence with the vendor and the City of San Diego has done their due diligence in maintaining that the Surveillance Ordinance is being followed and adhered to.

The more we research regional crime statistics, the more we are shocked that more citizens are not involved in coming forward in support of this technology for Smart Streetlights and ALPR. We have heard from about 200 citizens in a city of 1.4 million and are convinced that this technology will be in the best interests of the community of San Diego when it is implemented.

We realize that there will be modifications to the software and usage, and so we welcome those modifications to come back to the PAB for further consideration as needed.
